7th & 8th Grade: St. John Lutheran School

Welcome to St. John! Thank you for your interest in our school. My name is Justin Wintrone, and it is my privilege to serve St. John as the 7th and 8th grade teacher. I have a bachelor of science degree from Martin Luther College, our synod's teacher-training school, with majors in elementary education and secondary social studies education. The 2024-2025 school year will be my sixth year at St. John. I also serve as our school's technology coordinator.

Every day at St. John, we have the privilege of teaching our students the precious truths of God's word, along with all of the academic subjects that make up our curriculum. St. John offers an exceptional, Christ-centered education for your child. It is my prayer that you can join our family here at St. John!
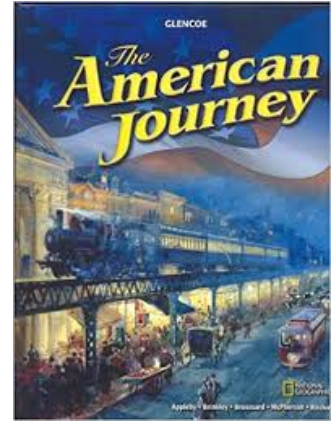

Our Classroom

Seventh and eighth graders bring lots of previous knowledge to the classroom, as well as a desire to learn more and make deeper connections that apply to real life. In our classroom, we have the ability to work both as a group and individually to help the students learn and grow. We also use methods and strategies that will help prepare the students for high school and beyond.

Our curriculum is designed to challenge our students and push them to higher levels of success. The small class sizes at our school allow students to be comfortable with each other and work together on various projects and activities. And above all, we keep Christ at the center of everything. What a blessing that is, and we pray that you can share in it with us!

Our Curriculum:

- Religion: *Christ Light* by Northwestern Publishing House
- Mathematics: Saxon Math
- Reading: Short stories & novels
- Language Arts: Houghton/Mifflin
- STEM: Project Lead the Way (PLTW)
- Science: Pearson Interactive
- Social Studies: Glencoe/McGraw-Hill U.S. History
- Physical Education and Health: SPARK

Before & After School Care, Summer Care

Our son attended St. John's preschool and now loves Kindergarten there. St. John is truly a unique family-centered environment with great teachers who really care about their students and love to invest in their education and spiritual foundation. We look forward to all three of our children attending St. John through 8th grade.
